Store Updates

We have been offering the Healthy Rewards Card program since last October and over 900 customers have signed up and are now saving money!

Updates to the program

- Please present your card each time you purchase something at our stores. It is your responsibility to present your card for rewards. We may not always remember to ask.
- If you forgot your card we can manually enter your rewards but be aware that the points may not be updated to your account for 2-3 weeks due to the time involved since this is a manual process.
- If you lost your card, you can get a replacement for a small fee of \$5, just let an associate know.
- Later in the coming months, we will be running sales for Healthy Rewards Card members only and you must have your physical card to participate, so please locate yours or purchase another.

Thank you for making this program successful and with your help, we can continue to offer this program and save you money!

October Sale Month!

Save an additional 25% off

already marked

sale and clearance items

throughout the store.

Look for the yellow sale tags!
