Boswellia has been a vital component of Ayurvedic medicine for thousands of years. Unique among botanicals, it supports certain pathways in the body better than other compounds. Frankincense is a treasured herbal ingredient known for its support of overall health and cellular protection.

Modern Science

This supplement combines an advanced form of boswellia that is uniquely standardized for greater strength with a super critical, CO2 frankincense oil. This provides concentrated, undiluted power, and a fuller spectrum of benefits.
