

100% Natural
Proven Herbal Remedy
Lowers Blood Pressure
Naturally, Safely, Effectively
No Side Effects

PressAssure®

See results in less than 2-5 days!

Ingredients: a pharmaceutically standardized herbal concentrate of Baikal skullcap root, Cassia tora L. seed, Ligusticum chuaxiong HORT. rhizome, white peony root, turmeric rhizome and Nardostachys chinensis BATALIN rhizome

You will see your blood pressure begin to lower in as little as two to five days of use. After 4 weeks of use, abnormally high systolic and diastolic pressure drop significantly.

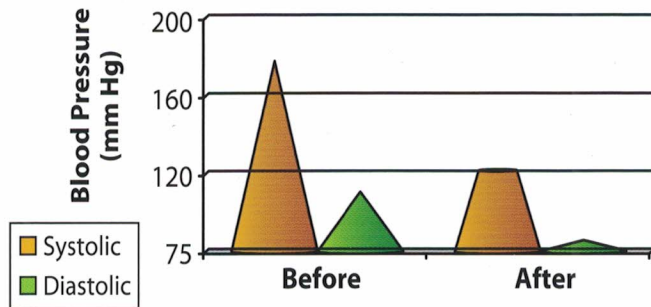

- PressAssure®** is best for significant long term results.
- PressAssure®** rids high blood pressure symptoms including headaches, heart palpitations, catching your breath after exertion, fatigue, flushed face, blurry vision, nosebleeds, a strong need to urinate often, ringing in the ears and dizziness.
- PressAssure®** is a 100% natural, completely safe herbal formula and will not cause dependency.
- PressAssure®** is the number one selling natural product in Asia for treating high blood pressure, prescribed in thousands of hospitals.

PressAssure® doesn't cause side-effects associated with blood pressure medicines: Weakness, tiredness, drowsiness, impotence, cold hands and feet, depression or sluggishness, trouble sleeping or nightmares, slow or fast heartbeat, skin rash, loss of taste or dry mouth, dry constant cough, stuffy nose or asthma symptoms, ankle swelling, leg cramps or aches in joints, headache, dizziness or swelling around eyes, constipation or diarrhea, and fever or anemia.

PressAssure® won't interfere with medications including diuretics, blood thinners, beta-blockers and calcium channel blockers. Do not stop or change prescribed medication without consulting your doctor.

Normal Blood Pressure Range: The American Heart Association now defines normal blood pressure to be "**Less than 120/80**". Doctors today are asking us to keep our blood pressure in the **115/75 mmHg** range.

Blood Pressure Dramatically Improves After 4 Weeks of **PressAssure®**
 130 Subjects

About 1 in 3 adults, or more than 75 million, have hypertension; only 61% are being treated; and roughly two-thirds do not have it under control. The CDC lists hypertension as a leading cause of death in the nation. Because hypertension itself usually has no symptoms, you can have it for years without knowing it. Untreated hypertension damages the kidneys and leads to stroke, heart attack, and heart failure. Heart disease and stroke are the first and third leading causes of death in the U.S.

High blood pressure sufferers are twice as likely to get a heart attack and eight times more likely to have a stroke, especially if they're over fifty five. **PressAssure®** is a natural, safe, effective and affordable solution to lower your blood pressure.

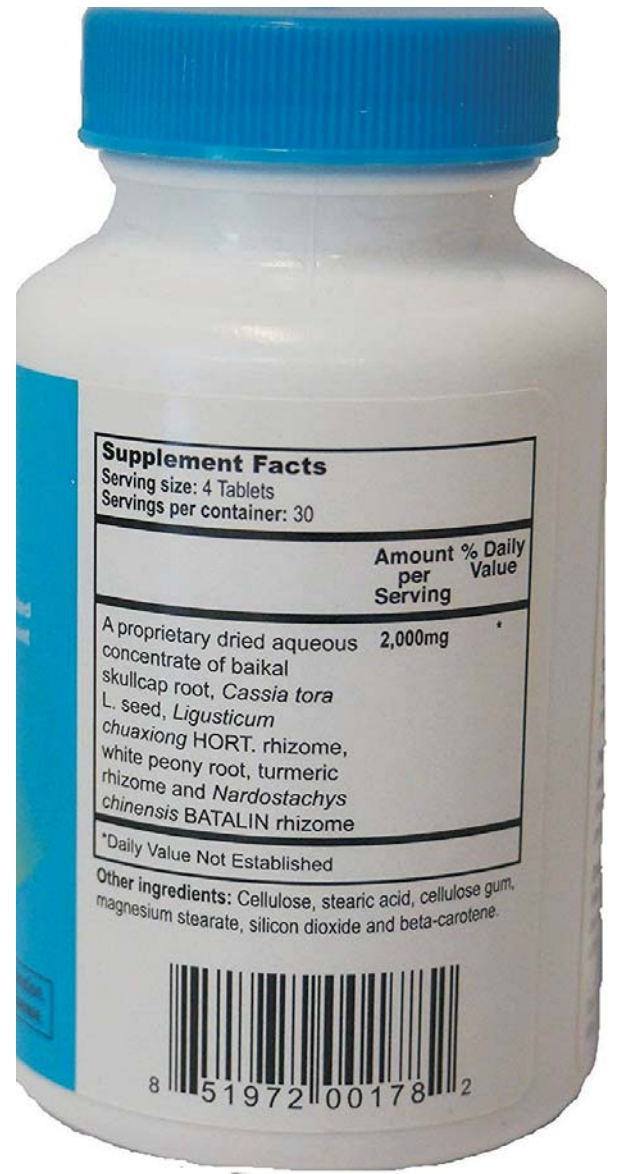

* The above statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Recommended Usage: 4 tablets every morning, 20-30 minutes before breakfast, or on an empty stomach. 120 tablets per bottle (1 month supply)
