

Product Spotlight

New Chapter WHOLEmega™

Pure Fish Oil
16 Omegas
Unprocessed

New Chapter® is proud to offer a whole-food approach to fish oil and an alternative to the fractionated, highly processed and “purified” oils on the market today. From the pristine, protected waters of Alaska directly to you, Wholemega is 100% wild-caught salmon oil, rigorously tested to ensure each capsule delivers Nature’s bioavailable, effective, and whole profile of beneficial fatty acids and nutrients.

Wholemega™ is a true expression of nature’s wisdom. By using only sustainably caught Alaskan salmon – among the world’s cleanest and most pure fish stocks – an extra virgin, low heat process is all that’s required to deliver nature’s intelligence and the whole complement of omega fatty acids, while still guaranteeing optimal purity. “Food Grade” Wholemega is extensively tested for detectable contaminants that must be distilled out of other fish oils.

Bioavailable: Clinically Shown to Enter Cell Membranes for Optimal Fish Oil Benefits

Effective: Reduces Inflammatory Arachidonic Acid*

Whole: Natural Source of 16 Omegas + Vitamin D + Astaxanthin

If there was a way to increase bodily energy, lose weight, decrease stress, detoxify the body and purify the skin while elevating the immune system to fight off everything from the common cold, asthma, and bronchitis to serious life threatening illnesses such as cancer, what could that be worth?

What if a person had to do to receive such benefits was relax and sit down for 15 to 30 minutes a day 3 or 4 times a week listening to their choice of music or watching a good movie - now what would that be worth?
