

Give your body the preferred ratios of protein fat and carbohydrates for optimum energy and performance!

NutriBiotic

PROZONE

30% CALORIES

HIGH QUALITY PROTEIN

- High quality protein for the optimal ratio of essential amino acids, key components for the formation of lean body mass.
- These key building blocks are the source of your body's essential enzymes to power peak metabolic efficiency.

30% CALORIES

HIGH ENERGY FAT

- **MEDIUM CHAIN TRIGLYCERIDES (MCTs)**
 - are lower in calories than ordinary fats
 - convert to energy twice as fast
 - will not oxidize like polyunsaturates
 - help stabilize blood sugar
 - do not raise cholesterol
 - do not store as fat; promotes thermogenesis
 - improve utilization of fat soluble vitamins and minerals
- **Borage Oil EFAs promote healthy hormone balance**

40% CALORIES

LONG-BURNING CARBS

- Pure crystalline fructose enters the bloodstream more slowly than most foods
- Slow-burning quality powers you over the long haul
- No rapid rise in blood sugar resulting in higher insulin levels in your body – low glycemic index value
- Less tendency to promote fat storage
- Reduces the formation of illness-causing eicosanoids as described in recent biomedical literature
