### Washington Store Event

### Reams PH Testing

Monday, March 22, 2010

10am-4pm-by appointment only

1 Hour-\$60.00-includes materials

Dr. Angie will be back at our Washington location to perform PH testing and re-testing for our customers.

Find out for yourself like dozens of other customers who experienced the benefit of information from this test!

PH imbalance could be the underlying cause of many health conditions including weight issues to fatigue, potential heart attack and many more inbetween.

Using methods discovered by Dr. Carey Reams we take saliva and urine samples to conduct a ph analysis of systemic energy. If there is an imbalance, it could lead to the body's inability to assimilate or use certain minerals.

Before you start any changes in the New Year, find where you stand with PH Testing.

The testing fee also includes consultation from Dr. Angie as well as printouts and take home information specific to your individual testing.

You must make an appointment in advance. Call 636-390-8777 or visit our Washington store today to make your appointment.
